

# Solid Plug Product Catalog

## Mithril Corrosion Control Products

### Solid Plug

---

The solid plug plays a vital role in the access fitting assembly. It functions as the seal within the access fitting, ensuring the retention of line pressure. Additionally, the plug is responsible for securing the monitoring equipment that interfaces with the system. It serves as the connection, enabling access and maintenance of the monitoring equipment.

**Mithril** produces vital Solid Plugs for use alongside:

- Corrosion coupon holders
- Injection/Sampling equipment
- Bacterial sampling probes
- Sand probes

### Features:

- Manufactured from 316 Stainless steel
- Comes with mounted seals
- No welds in the fitting body, One-Piece construction
- Adjustments to dimensions are available upon request

Fig.1 Solid Plug

Part Number	Dimensions	Material
CC-11000	Standard NPT thread- upon request	316 Stainless steel
